Contemporary Bathroom Solutions

Britton Bathrooms bring a wide range of innovative products for the ultimate contemporary bathroom to suit you and your family. Unlike other producers, our complete bathroom solutions are packed with clever features and additional benefits, such as all toilet bowls featuring NANO glaze easy-clean finish, all baths with the highest strength reinforcement, all brassware with ceramic disc operation, all showers with ultra fast thermostatic control and all of our shower trays manufactured with a strong steel frame.

With a timeless, elegant appeal, our products have been designed to offer contemporary styled bathrooms for all of your needs.

A wide range of basins offering versatility of design installation.

Four simple basin shapes available in different sizes allowing mixing and matching with all products in the Britton collection.

Curve Basin

Available in 500mm, 600mm and semi-recessed.

Compact Basin

Available in 450mm, 550mm, 650mm and semi-recessed.

Fine Basin

Available in 500mm, 600mm and semi-recessed.

Cube Basin

Available in 500mm, 600mm and semi-recessed.

Ceramic Basins

Whether you prefer the vanity style of countertop basins, wall-mounted with exposed waste, semi-recessed with corresponding furniture units, semi-pedestal or a full pedestal, our ceramic basins offer the flexibility to suit you.

Close-coupled and back-to-wall WCs. Matching bidet available.

Ceramic Toilets & Bidets

Choose from close-coupled, back-to-wall or wall-hung varieties to suit your own personal preferences. Whatever your choice, the Britton WC collection provides understated elegance to complement any contemporary styled bathroom.

CERAMICS
25
 YEARS
 GUARANTEE

nanoGLAZE
CERAMIC PART STAYS CLEANER

All WCs have a unique stay-clean NANO Glaze coating, creating an ultra-smooth surface, six times smoother than standard ceramic.

Rimless toilet design

Our Sphere WC range (except TALL version) has a rimless design, ensuring your toilet is super simple to clean and maintain.

Soft-close & quick release seats

All of our seats match our Britton toilets and are soft-close for quieter operation and quick release for easier cleaning.

Close-coupled

Britton close-coupled toilets consist of toilet pans and exposed dual flush cistern with push button flush for ease of use.

Stadium close-coupled WC £200
Cistern with lid £100
Seat £79

Back-to-wall

For a minimalistic approach, select a back-to-wall WC, which is the perfect choice for those wanting to hide cisterns and fittings within bathroom walls or furniture.

Stadium back-to-wall WC £200
Seat £79

Wall-hung

For an even more minimal look choose a wall-hung WC which offers cleaner lines, more space and easy cleaning.

Sphere rimless wall-hung WC £250
Seat £79

Bidets

A variety of floor-standing bidets are available to match your chosen ceramic. Pair with elegant bidet mixers from NEW Elegante or Crystal and Sapphire ranges with pop-up waste.

Fine bidet £250
Elegante bidet mixer £219

Increased comfort with TALL ceramic basins and WCs.

The TALL basin pedestal offers superior comfort for taller people and the elderly or less able. With an increased height of 6cm, this reduces the risk of back pain whilst using the basin.

Select the basin you want and then select the TALL pedestal instead of the standard pedestal.

Tall Code: FP.1977

Box rim design

Britton furniture is built to last with sleek design and maximum storage.

Britton offers a range of either free-standing or wall-hung furniture pieces. Or combine base and wall units for those who prefer the fitted furniture look, which can be configured to fit your desired space. Cloakroom furniture units offer unique storage solutions for even the smallest of bathrooms.

600mm Gullwing cabinet with
600 Quattrocast basin £738
Elegante basin mixer £209

Considered, Innovative Design.

We select the finest materials for each part of our furniture to provide a product that will last.

Storage solutions

Unlike conventional fitted furniture, our units offer full floor to height storage providing increased space for your bathroom cosmetics and accessories. Adjustable glass shelves, made of 6mm shatterproof safety glass, provide storage for all your bathroom necessities.

Battery operated LED lighting is available for your cabinet or drawer, a motion detector turns on the light with any movement and automatically switches off after 15 seconds of inactivity. See page 28.

Colour Options

White

Light grey

Anthracite grey

Choice of colour

There is a choice of three colourways across our furniture range. To keep your furniture looking its best, our outer finish materials, either vinyl wrap or 5 coats of paint, are hard wearing, easy to clean and durable for your bathroom.

Choice of washbasins

Britton furniture provides a choice of integrated ceramic or Quattrocast basins. Quattrocast is a high quality material which is cast to perfectly fit over the complete countertop so giving a seamless finish impervious to bacteria.

Soft-close doors & drawers

All of our furniture is equipped with soft-close drawers and doors for that added piece of luxury in your bathroom. Doors also open wide to allow for ease of access to bathroom essentials and cloakroom cabinet doors can open from the left or the right to suit your bathroom configuration.

Fitted Furniture

A fitted bathroom with a straight line of base and wall cabinets covering one wall often gives the illusion of space whilst providing clever storage. Choose from furniture in White, Light grey or Anthracite for a consistent and contemporary look.

Step 1 Size

Measure the wall you intend your fitted furniture to run along, ensuring you measure the depth to guarantee you'll have ample room when your chosen units are in place for other bathroom pieces such as a bath or shower.

Step 2 Base units

Choose your base units to add up to the length of your run. You will need at least one basin unit and possibly a WC unit if you'd like to maintain this product within the one wall, rather than placing separate ceramic elsewhere. Then simply make up the rest of the run with low or tall storage units.

Step 3 Basin

You can choose from a Quattrocast top with integrated basin or a ceramic basin with added worktop. The Quattrocast top should be the same length as the sum of your base units, WC and basin units combined. This creates a seamless look with no joins.

Step 4 Worktop

If you have chosen a ceramic basin, then simply select a worktop to cover the run of base units. The worktop will be cut to fit the basin (template provided). The worktops are available in the same 3 colours for consistency; White, Light grey or Anthracite.

Step 5 Wall units

Choose wall units in either 300mm or 600mm widths and with or without mirrored doors for additional storage and the perfect finishing touch to your fitted furniture configuration.

The warmth of acrylic with the strength of steel, in 36 models.

Cleargreen acrylic baths incorporate steel bars to make them the most rigid baths on the market, which means they will not flex in use. Available in a full range of shapes and sizes to suit your needs, either as right or left handed, single-ended, double-ended, offset or showering baths and with matching screens to perfectly fit.

Ecosquare showering bath £419
 Ecosquare shower screen with access panel £529
 Bath front panel £139
 End bath panel £79
 Elegante thermostatic dual valve £499
 Overflow filler £169
 Contemporary slide bar kit £139

Sustain Single-ended

A single-ended bath with a subtle square internal shape for those preferring a more angular look. Available in 3 lengths and widths to suit a variety of bathroom sizes.

Shower Screens

We offer a range of 5 shower screens you can add to our single, double-ended or offset baths so you can pair your chosen bath showering sets. Our showering baths are available with uniquely shaped screens to follow their own specific shape. See page 54 for details.

Basket Installation
Cleaning made easy with the
easy-clean clip-on, clip-off
wire basket mounting system.

Thermostatic and digital valves are safe for the whole family.

Britton only offers the best in comfortable thermostatic shower controls. There is a choice of wax capsule controlled Elegante or the latest 2025 digitally controlled thermostats. Both offer accurate temperature control and the choice of single or dual outlet so you can have two shower outlets or bath filling and shower from the same thermostat. 2025 also brings remote control and a highly visual guide to temperature.

Digital high pressure dual outlet £771
Round handspray and holder £139
Round fixed 200 head and shower arm £144
Large rectangle shower tray £340

Contemporary 2025 Digital Collection

Create the ultimate showering experience with the innovative Contemporary 2025 Digital kits. With precise temperature technology and high-quality design, the Digital shower makes safety, simplicity and sophistication integral to your everyday routine.

Cool touch metal controls

Shower controls are kept completely separate from the water in the valve, which means they always stay cool and safe to touch.

Precise temperature

Sophisticated technology gives you accurate control of the water temperature.

Easy divert

Divert the flow quickly and easily with just a few touches. Press the lower control once to divert from the main showerhead to the second, and again to run both at once. On the dual bath and shower, press once to switch to showerhead and a second time to return to bath flow.

Colour changing controls

The controls gently pulse white as the water reaches your set temperature, while a subtle, white glow lets you know the shower is ready. When you adjust the temperature the controls flash red or blue as the water heats up or cools down.

Temperature override

Each digital processor has a pre-set maximum temperature of 41 (degrees C), which can be overridden and adjusted to 46 (degrees C). As bath temperatures are usually higher, when you divert to the bath outlet the maximum temperature will automatically rise to 44 (degrees C).

Consistent temperature

A built-in thermistor checks the temperature 10 times every second so that, even when someone is using water elsewhere in the house, the water temperature will stay exactly the same.

Automatic shut off

If there are any problems with your water supply, the shower will shut off immediately. This provides peace of mind that your family is fully protected from hot water scalding, or the discomfort of an unexpected cold shower.

Cleaning mode

While the shower is off, set the temperature to midway between hot and cold, then press and hold the dial for 5 seconds. The light on the controller will come on to show you it's locked, then after one minute it will automatically unlock.

Quiet pump

For low-pressure installations the digital shower features an ultra quiet, integrated brushless motor, boosting performance to allow high-pressure showering with minimum noise.

Remote control

Fit an optional remote control anywhere outside of the shower enclosure and within 10 metres of the digital shower. Simply press the button to turn the shower on or off, or press and hold for 1.5 seconds to divert the water flow between showerheads or bath and shower.

Our selection of product options enables you to create a showering experience individual to you and your home. Choose between single and dual shower and bath fill controls then combine with stunning fixtures to achieve your ideal look. Introduce a final touch of elegance with the digital remote, a unique additional control that allows you to smoothly turn on the water and divert the flow before you even enter the shower.

The strongest shower trays on the market, reinforced with a steel frame.

Zamori®

Available in over 60 shapes and sizes and with a variety of installation options to suit your bathroom, Zamori shower trays combine variety with the best class of anti-slip technology and an anti-bacterial coating as standard. Their steel frame provides superior strength making them the ideal choice to complete your contemporary bathroom.

There are a number of ways you can install your shower tray. Placed flat on the floor, sunk into the floor or raised above the floor. Whichever installation you require, Britton's Zamori shower trays offer the largest range of 35mm trays available in the UK.

Steel construction

Our trays are made from high quality acrylic/ABS incorporating a unique steel frame made to the exact shape of the tray. This produces the strongest on the market and ensures rigidity for a lifetime of use. The trays are flat on the underside making installation and levelling easy.

- 1 Acrylic capped ABS layer
- 2 Bonding layer
- 3 Thickness control pad
- 4 Steel frame structure
- 5 PU Foam
- 6 Insulation layer - ABS sheet

Anti-slip

Zamori trays offer the highest anti-slip rating due to our unique Swiss Grip Antislip. We are the only manufacturer to thermo bond this onto the tray with a curing process, ensuring better performance for a cleaner and longer lasting surface.

12° Class A

18° Class B

24° Class C

Grip
SAFETY COATINGS

SWISS QUALITY

Anti-bacterial composition

Zamori trays have the added benefit of a silver based anti-bacterial additive added into the manufacturing process. The anti microbial qualities protect the surface against harmful bacteria and suppress mould growth, keeping your shower clean and safe to use.

Vortex turbo waste

All of our shower wastes are high flow Vortex Turbo wastes designed to fit all of our trays. Water flows out at up to 30 litres per minute, making them one of the most efficient available and suitable for high volume showering applications.

Sealing strip

Our sealing strip fits every tray and will ensure years of leak free usage of your shower. The sealing strip prevents water seeping between the tray and the wall and is recommended for installation on all trays. Especially true for bathrooms with wooden floors where floor movement is far more likely.

Tray panels

If you cannot run your waste under the floor, you will have to raise your shower tray to allow for pipe work. In such cases, you need a shower panel kit. Our kits come complete with male and female acrylic panels, legs and adjustable arms with adhesive tapes - so that you can remove the panel easily if you need access for maintenance. Simply choose the panel kit that suits the tray you have chosen.

Waterproof sealing strips

Our unique - 'easyseal' water sealing strip - takes minutes to install. All trays should be installed with a sealing mechanism - to prevent water seeping between the tray and the wall. This is especially true in bathrooms with wooden floors - where floor movement is far more likely. Supplied in a generous 4.1 metre length - the strip is cut to size when sealing the shower tray.

Code: Z1205 £15

Slate effect high flow vortex shower waste
W: 115 x D: 130 x H: 110
Code: Z1205G £15

Waterproof sealing strips

Our unique - 'easyseal' water sealing strip - takes minutes to install. All trays should be installed with a sealing mechanism - to prevent water seeping between the tray and the wall. This is especially true in bathrooms with wooden floors - where floor movement is far more likely. Supplied in a generous 4.1 metre length - the strip is cut to size when sealing the shower tray.

W: 100 x D: 100 x H: 30
Code: Z1208 £24
